Youth Theatre - Kids Ages 7-9 \$350 Capacity: up to 25 students

This program is all about introducing kids to the joy and FUN of theater. Our curriculum will exercise young imaginations, introduce games to promote collaboration, and lay a foundation for confident self-expression. Directors will help students build coordination through dance, introduce music fundamentals, and practice the principles of engaging storytelling. The program will culminate in a performance of an adapted story with group song & dance numbers. Our Youth Theatre - Kids program is sure to spark an interest in the arts for a lifetime!

Youth Theatre - Middles Ages 10-12 \$375 Capacity: up to 30 students per session

Older elementary and middle school students will refine their skills as individual performers and as an ensemble. Together, directors and students will work to identify and cultivate each individual's physical and vocal abilities to tailor our days to the skill level of each camper. At this level, directors will support students' passion by growing their craft as musicians, dancers, and actors. They will have the opportunity to apply their talents to performance through a one-act play with musical numbers woven throughout. The Youth Theatre - Middles program will equip students with tools for confident self-expression and collaboration, and we'll have fun doing it!

Youth Theatre - Teens Ages 13-18 \$400 Capacity: up to 30 students

Our most rigorous program welcomes serious theatre students as well as curious newcomers. With more opportunity for specialization in our teen program, directors will aim to meet individual students where they are and help meet their goals in growing as performers and artists. The extended program hours enable intensive focus on training and technique, ensemble-building, and rehearsal of our one-act, cabaret-style show. Our program will work to free the body to recognize and act on impulses and expand vocal possibilities while refining musicianship. Directors will help students trust and grow their creative imagination and self-confidence through vocal exercises, movement styles, and improvisation. Youth Theatre - Teens will equip young adults with the physical and vocal presence to serve them on stage and beyond!
